

WATER-WISE LANDSCAPE SEMINARS

April 2017

WHAT YOU NEED TO KNOW TO MAKE YOUR LANDSCAPE THRIVE

Landscaping in the semi-arid west comes with unique challenges like tricky clay soils, rocky earth, and limited water supply. Our expert led Water-Wise Landscape Seminars are designed to educate and empower you to work with our natural resources to help your landscape thrive. **Seminars are offered at no cost and are open to everyone.**

CITY OF BRIGHTON SEMINAR

Low Water Landscaping Tips and Tricks

Tuesday, April 4 • 6pm–8pm

Location: Brighton Recreation Center
555 N. 11th Avenue, Brighton, CO 80601

From plant selection to landscape design to irrigation schedules, we are bombarded with decisions when it comes to managing and caring for our landscape. This seminar will explore a variety of low water tips and tricks ideal for reducing your outdoor summer water use, and it will provide the knowledge, tools, and resources necessary to create your very own water-wise landscape. Join local plant expert, **Keith Williamson of Little Valley Wholesale Nursery** in Brighton, CO, as he shares the secret ingredients for a successful and low maintenance landscape that requires less water while also contributing to the beauty of your surroundings.
