Eligible Facilities Request (EFR) Verification Form

Site Address / Location: _____

Applicant / Company Name: _____

Authorized Contact Person: _____

Mailing Address: _____

Phone Number: _____

Email Address: _____

Property Owner Name: _____

Property Owner Address: _____

Property Owner Phone or Email: _____

Type of Existing Structure:

- Wireless tower
- Utility pole
- Building / rooftop
- Other (describe): _____

Briefly list the modifications to the existing Wireless Communication Facility and include the dimensions of the equipment. Also include the extent to which the modifications increase the height or width of the eligible structure.

CHECK THE FOLLOWING BOXES TO CONFIRM THE MODIFICATION QUALIFIES AS AN EFR

For towers other than towers in the public rights-of-way, it **does not** increase the height of the tower by more than 10% or by the height of one additional antenna array with separation from the nearest existing antenna not to exceed twenty feet, whichever is greater; for other eligible support structures, it **does not** increase the height of the structure by more than 10% or more than ten feet, whichever is greater.

For towers other than towers in the public rights-of-way, it **does not** involve adding an appurtenance to the body of the tower that would protrude from the edge of the tower more than twenty feet, or more than the width of the tower structure at the level of the appurtenance, whichever is greater; for other eligible support structures, it **does not** involve adding an appurtenance to the body of the structure that would protrude from the edge of the structure by more than six feet.

The proposed modification **does not** involve installation of more than the standard number of new equipment cabinets for the technology involved, but not to exceed four cabinets; or, for towers in the public rights-of-way and base stations, it **does not** involve installation of any new equipment cabinets on the ground if there are no pre-existing ground cabinets associated with the structure, or else **does not** involve installation of ground cabinets that are more than 10% larger in height or overall volume than any other ground cabinets associated with the structure.

The proposed modification **does not** entail any excavation or deployment outside of the current site, except that, for towers other than towers in the public rights-of-way, it **does not** entail any excavation or deployment of transmission equipment outside of the current site by more than 30 feet in any direction.

The proposed modification **does not** defeat the concealment elements of the eligible support structure.

The proposed modification complies with conditions associated with the siting approval of the construction or modification of the eligible support structure or base station equipment.

I certify that the information provided in this notification is true and correct to the best of my knowledge and that the proposed modification qualifies as an **Eligible Facilities Request** to an existing Wireless Communication Facility under local, state, and federal law.
